

# BEEF PRODUCER TWILIGHT MEETING

Hosted by  
Kirkton Bovine Services &  
Kirkton Veterinary Clinic

## MAXIMIZING CALF HEALTH, PERFORMANCE AND PROFITABILITY

**Thursday, September 25<sup>th</sup>, 2014**

**\*\* Ilderton Community Centre \*\***

**13168 Ilderton Road, Ilderton, Ontario**

**6:30pm**

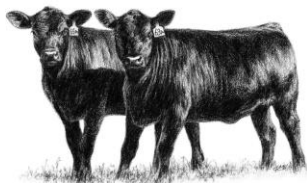

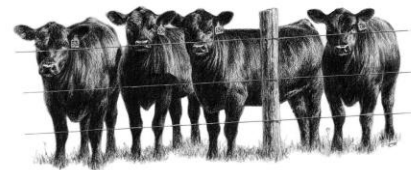

### Calf Comfort

Are your management protocols in line with the new code of practice recommendations and requirements? Your KVC veterinarians will review strategies to improve calf comfort and welfare.

### Deworming Strategies

Dr. Roy Lewis, Technical Services Veterinarian with Merck Animal Health will discuss appropriate ages, times and strategies for deworming to increase performance and decrease resistance issues.

### Implant Strategies

Dr. Roy will also discuss the use of implants in both cow-calf and feedlot settings, as a means to improve ADG and your farm's bottom line.

**Kindly RSVP to the clinic by September 19<sup>th</sup>**

**\*\* 519-229-8911 \*\* 1-888-443-4184 \*\***

**Beef on a bun dinner, dessert and refreshments provided**
